Value of Printing Material.

There are but few people outside of the trade who have any idea of the value of printing material. A general survey of all the various articles in use fails to convey to the mind any fair estimate as to their value, and we don't know that any better way could be thought of to enlighten the public on this point than by quoting a few of the offers we have recently received from people who want printing material, but have not the cash bandy to pay for it.

J. L. Writes from Texas-"We will deed you 140 acres of land in a central location, if you will send us 50 pounds Nonpareil, 5 pounds Leads, and a cut of a jack about 4x8 inches."

M. C. H. writes-"Will you trade us a small card press, with six or seven fonts of type, for 275 acres of land in Arkansas? It is right in the center of God's country."

J. H. H. writes from Arizona-"We must have more type. Now we will tell you what we will do. Send us 35 pounds bourgeois, with 5 pounds italie, 3 fonts long primer law italie, and 4 yards nonpareil reglet, and we will transfer 350 HAIR BALSAM shares of stock in the 'Struck It Rich Mining Company,' Some day this stock may be worth a thousand dollars a share."

We have made a careful estimate of our stock on hand and find, at the above valuation of real Restores the Youthful Color to Gray or Faded Hale estate, that we have enough type on hand to buy all the land in North and South America, Europe, Asia, Africa, Australia, the Hebrides and a good big slice of the Arctic ocean .- Printer's Register.

The next morning the pain had entirely left my foot, the swelling was reduced, and really the appearance was so different altogether from the day before, that it actually surprised me. I applied more of the St. Jacobs Oil, and that afternoon I walked down here to the office, and was able to attend to my duties and get around as well as any one.
